

**PART NUMBER ACCESSORY CODE**

D

**MATERIAL**

Stainless Steel

**SPECIFICATIONS**

- Holds Door Open 110°
- Stops Door from unintentional closure
- Increased Safety for Technician

**APPLICATION**

The Door Stay is a reliable accessory for holding Enclosure, Cabinet and Panel doors securely in position, preventing unintentional closure. The primary function of the door stay is to ensure doors remain open when needed, allowing convenient and safe access to the enclosure's interior.

With a sturdy design, this Door Stay is well-suited for applications where maintaining a safe open door position and easy accessibility for technicians is vital.
