

**ACCESSORY CODE: C****SPECIFICATIONS**

- Fasteners Remain Attached To Lid / Door
- Reduces Loss & Misalignment
- Quick & Convenient Accessibility

MATERIAL

Stainless Steel

KEY FUNCTIONS & BENEFITS

- Captive design ensures fasteners stay attached to the lid, eliminating the risk of losing essential hardware.
- Speeds up servicing by removing the need to track or replace lost fasteners.
- Reduces misalignment, making lid reinstallation quicker and easier.
- Prevents loose hardware from becoming a hazard in industrial environments.
- Reduces the chance of foreign object damage (FOD) in critical applications.
- Engineered for long-term durability, even in high-vibration and heavy-use environments.

APPLICATION

SLAYSON's Captive Lid Fasteners are precision-engineered to provide a secure and dependable fastening solution for our enclosures. Designed to remain attached to the lid, these fasteners eliminate the risk of loss or misplacement during maintenance, ensuring seamless and efficient access while maintaining enclosure integrity.

SLAYSON® Captive Lid Fasteners are a practical, safety-driven solution for securing enclosure lids while keeping essential hardware readily available. Designed for maximum reliability, they ensure your enclosures remain secure and easy to access in any environment.

Built for demanding industrial environments, our captive fasteners enhance safety, reduce downtime, and simplify reassembly, making them an essential accessory for mission-critical applications.
