

## APPLICATION

SLAYSON's Door Stay is a reliable, essential accessory designed to hold enclosure, cabinet, and panel doors securely in the open position, preventing accidental closure. This simple yet crucial component enhances safety and efficiency in industrial environments, ensuring easy access and improved productivity for technicians.

Offering dependable support for maintaining open doors, SLAYSON's Door Stay improves safety and accessibility while working with industrial enclosures.

**ACCESSORY CODE:** D

## SPECIFICATIONS

- Holds Door Open 110°
- Stops Door From Unintentional Closure
- Increased Safety for Technician

## MATERIAL

Stainless Steel

## KEY FUNCTIONS & BENEFITS

- Prevents doors from swinging closed unexpectedly, a key safety feature for heavy or large doors.
- Keeps doors securely open, providing unobstructed access for maintenance and repair, allowing technicians to work hands-free.
- Reduces the risk of injury or damage caused by unintended door closure during maintenance or troubleshooting.
