

Need Images

ACCESSORY CODE: *

*Customer Modification Code is required when the Accessory component selected requires any of the following:

- Enclosure cutouts, through holes or penetrations
- Customer involved design for accessory placement

This code is added in front of the part number by SLAYSON to provide a unique identifier for the customer specific engineering data.

SPECIFICATIONS

- Clear Identification
- Regulatory Compliance
- Critical Information at a Glance
- Built for Harsh Environments

MATERIAL

To Match Enclosure

KEY FUNCTIONS & BENEFITS

- Displays essential details about the enclosure and housed equipment.
- Aids in asset management, maintenance, and troubleshooting.
- Enables easy decontamination for sensitive applications.
- Features industry-required markings such as UL, CE, and IP ratings for global compliance.
- Ensures adherence to safety and operational standards.
- Resistant to wear, corrosion, and extreme conditions.
- Maintains legibility for long-term reliability.

APPLICATION

SLAYSON® nameplates serve as critical information carriers, ensuring industrial enclosures are properly identified and meet industry regulations. Engineered for durability, our nameplates provide essential data for tracking, maintenance, and safety compliance.
