ACCESSORY CODE: P

SPECIFICATIONS

- Increased Security & Protection
- Quick Access
- Removable Hinge Pin
- Robust Heavy Duty construction

MATERIAL
To Match Enclosure

KEY FUNCTIONS & BENEFITS

- Provides an additional layer of protection beyond standard latches, deterring tampering and unauthorized entry.
- Made from high-strength materiall to resist forced entry and harsh industrial conditions.
- Designed to accommodate padlocks, hasps, and other locking mechanisms for maximum security.
- Engineered for reinforced mounting, ensuring the lock tab remains firmly in place.
- Specifically designed for SLAYSON enclosures, maintaining full NEMA 6P / IP68 submersion and environmental protection even in extreme conditions.

APPLICATION

SLAYSON's Security Lock Tabs provide a simple yet highly effective solution to enhance the physical security of industrial enclosures. Designed to prevent unauthorized access, these lock tabs ensure sensitive equipment, electrical components, and valuable assets remain protected at all times.

SLAYSON's Security Lock Tabs offer a rugged, reliable, and easy-to-integrate security solution, ensuring maximum protection without compromising accessibility.
